PART V: REVIEW OF SUMMARY, METHODOLOGY AND EXPLANATION

Texas Labor Code §413.011(a-d), titled *Reimbursement Policies and Guidelines*, and Division rule at 28 Texas Administrative Code §134.1, titled *Use of the Fee Guidelines*, effective May 16, 2002 set out the reimbursement guidelines.

This request for medical fee dispute resolution was received by the Division on June 17, 2005. Pursuant to Division rule at 28 TAC §133.307(g)(3), effective January 1, 2003, 27 TexReg 12282, applicable to disputes filed on or after January 1, 2003, the Division notified the requestor on June 28, 2005 to send additional documentation relevant to the fee dispute as set forth in the rule.

- For the services involved in this dispute, the respondent reduced or denied payment with reason code:
 - (A-X170) – Pre-Authorization was required, but not requested for this service per TWCC Rule 134.600.
- Division rule at 28 TAC §134.600(b)(1)(B) states that "The carrier is liable for all reasonable and necessary medical costs relating to the health care: (1) listed in subsection (h) or (i) of this section, only when the following situations occur... (B) preauthorization of any health care listed in subsection (h) of this section was approved prior to providing the health care..." Division rule at 28 TAC §134.600(h)(2) provides that the non-emergency health care requiring preauthorization includes outpatient surgical or ambulatory surgical services. Review of the submitted documentation finds that preauthorization for the disputed services was approved prior to providing the health care. The insurance carrier's denial reason is not supported. The disputed services will be reviewed per applicable Division rules and guidelines.

3. This dispute relates to outpatient surgical services provided in a hospital setting with reimbursement subject to the provisions of Division rule at 28 TAC §134.1, effective May 16, 2002, 27 TexReg 4047, which requires that "Reimbursement for services not identified in an established fee guideline shall be reimbursed at fair and reasonable rates as described in the Texas Workers' Compensation Act, §413.011 until such period that specific fee guidelines are established by the commission."
4. Texas Labor Code §413.011(d) requires that fee guidelines must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. It further requires that the Division consider the increased security of payment afforded by the Act in establishing the fee guidelines.
5. Division rule at 28 TAC §133.307(g)(3)(C)(iv), effective January 1, 2003, 27 TexReg 12282, applicable to disputes filed on or after January 1, 2003, requires the requestor to send additional documentation relevant to the fee dispute including a statement of the disputed issue(s) that shall include "how the submitted documentation supports the requestor position for each disputed fee issue." Review of the submitted documentation finds that the requestor did not state how the submitted documentation supports the requestor's position for each disputed fee issue. The Division concludes that the requestor has not met the requirements of Division rule at 28 TAC §133.307(g)(3)(C)(iv).
6. Division rule at 28 TAC §133.307(g)(3)(D), effective January 1, 2003, 27 TexReg 12282, applicable to disputes filed on or after January 1, 2003, requires the requestor to provide "documentation that discusses, demonstrates, and justifies that the payment amount being sought is a fair and reasonable rate of reimbursement." Review of the submitted documentation finds that:
 - The requestor has not articulated a methodology under which fair and reasonable reimbursement should be calculated.
 - In support of the requested reimbursement, the requestor submitted redacted EOBs that the requestor asserts are for similar medical services performed in the same locality and geographical area. However, the requestor did not discuss or explain how the sample EOBs support the requestor's position that additional payment is due. Review of the submitted documentation finds that the requestor did not establish that the sample EOBs are for services that are substantially similar to the services in dispute. The carriers' reimbursement methodologies are not described on the EOBs. Nor did the requestor explain or discuss the sample carriers' methodologies or how the payment amount was determined for each sample EOB. The requestor did not discuss whether such payment was typical for such services or for the services in dispute.
 - The requestor does not discuss or explain how payment of the amount sought would result in a fair and reasonable reimbursement.
 - The requestor did not submit documentation to support that the payment amount being sought is a fair and reasonable rate of reimbursement.
 - The requestor does not discuss or explain how payment of the requested amount would ensure the quality of medical care, achieve effective medical cost control, provide for payment that is not in excess of a fee charged for similar treatment of an injured individual of an equivalent standard of living, consider the increased security of payment, or otherwise satisfy the requirements of Texas Labor Code §413.011(d) or Division rule at 28 TAC §134.1.

The request for additional reimbursement is not supported. Thorough review of the documentation submitted by the requestor finds that the requestor has not demonstrated or justified that payment of the amount sought would be a fair and reasonable rate of reimbursement for the services in dispute. Additional payment cannot be recommended.

7. The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution, and the thorough review and consideration of that evidence. After thorough review and consideration of all the evidence presented by the parties to this dispute, it is determined that the submitted documentation does not support the reimbursement amount sought by the requestor. The Division concludes that this dispute was not filed in the form and manner prescribed under Division rules at 28 Texas Administrative Code §134.600, §133.307(g)(3)(C), and §133.307(g)(3)(D). The Division further concludes that the requestor failed to support its position that additional reimbursement is due. As a result, the amount ordered is \$0.00.
